

Research on UI:

- possible alternative color palettes:
  - <https://colorhunt.co/palette/171073>
  - <https://colorhunt.co/palette/178369>
  - <https://colorhunt.co/palette/179483>
  - looking for primarily monochromatic or muted color palettes in an effort to make the site more sophisticated
  - some that more closely resemble a more sophisticated version of the original palette:

- another potential option:

- research on ways to accomplish hover animation:
  - with just pure css:  
[https://www.w3schools.com/css/css3\\_animations.asp](https://www.w3schools.com/css/css3_animations.asp)
  - with pure javascript:  
[https://www.w3schools.com/js/js\\_html5\\_animate.asp](https://www.w3schools.com/js/js_html5_animate.asp)
  - list potential libraries to be used for more sophisticated animation:  
<https://blog.bitsrc.io/11-javascript-animation-libraries-for-2018-9d7ac93a2c59>
  - Web Animation API:  
[https://developer.mozilla.org/en-US/docs/Web/API/Web\\_Animations\\_API/Using\\_the\\_Web\\_Animations\\_API](https://developer.mozilla.org/en-US/docs/Web/API/Web_Animations_API/Using_the_Web_Animations_API)
